AD LECTOREM.

CASPAR RVTZ MECHLINIENSIS.

 M multi hodie tum scripti tum scalpti libri sint, qui regiones varias, variarumq; regionum vrbes ijs qui ex tabulis pictos addiscere mundos coguntur ob oculos ponant, opera precium eos facere arbitror, qui ne huiusmodi peregrinatio nimis solitaria videatur aut difficilis efficiunt. Sed qua id ratione efficiunt. Hac nimirum: si cum ea tabula Oceanū ac maria peregrinis cum piscibus tum nauibus, montes ac siluas vario tum bipedum tum quadrupedum animalū emblemate ornata exhibeant, hominem cuius vnus causa creata sunt & fiunt omnia eo corporis habitu in scenam producant, qui singulis gentibus peculiaris est. Etenim sic non tantū prouincia prouincia, sed homo etiam homini quid intersit ex vario cultus genere, qui ingenium plerumque ac mores prodit, in oculos incurret. Qui sane verus peregrinationis fructus est. Atq; ea in re præclarissimam, mea quidem sententia, operam elegantissimi vir ingenij Ioannes Iacobus Boissardus posuit: qui peregrinos maximeq; inter se diuersos populorum habitus ad viuum bona fide, summoque artificio delineatos vt eos scalpellō edī curarem, nuper ad me perferendos dedit: in quibus tanta meorum scalptorum industria elaboratum est, vt omnium oculos, vnde suauissimè pascantur, habituros confidam. Si quos hic alios aliarum nationum habitus desiderabis, eos alterum nostrum volumen superioribus annis editum, dabit: quibus frui pro arbitratu tuo. Vale. Colonia.

Cum priuilegio Regis Hispaniarum & Cancellarij Brabantiae ad sex Annos.

A ILLVSTRES ET VERTVEVSES DAMOISELLES, MES

DAMOISELLES NICOLE ET LOYSE DE VIENNE FILLES DE HAVT ET PVISSANT

Seigneur Messire Claude Antoine de Vienne Seigneur de Cleruant Copet etc.

IAN IAQVES BOISSARD BISVNTIN.

MES Damoiselles, i'auoye delibéré de tenir serré mon recueil de diuers habits, & n'i estoie resolu ne le iamais mettre en lumiere pour estre veu imprimé, m'esmouuant à celà plusieurs bonnes & legiimes raisons, si voz persuasions ne my eussent poussé. Car en cest endroit i'ay mieux aimé forcer mayolonté, que manquer au desir de vous faire seruice: ce qui m'est d'autant plus agreable, que ie scay qu'y prenez plaisir comme celles qui caressez toutes choses honestes & vertueuses, lesquelles aussi ont attent le plus haut degré de perfection, & qui (cōme l'aymant) attirent les yeux d'un chascun sur vous, pour les admirer. Mais quoy? pouuoit il aduenir autrement, vous ayant pris origine d'un pere autant illustre, en la noblesse de son sang, renommé pour sa generosité & magnanimité, que cheri pour sa preudhommie & bon naturel, qui de son maillot luy fit prendre course en la carriere de vertueuses actions, pour mespriser toustraux & labeurs, moyenant lesquelz, apres plusieurs peines & fatigues, il a acquis l'honneur merité: aimât mieux son cocur genereux paruenir au sommet de gloire, par une voye aspre & penible, que par l'hameçon de delices estre sans nom accroché en sa maison. Ie passe icy sous silence les rares dons de madame vostre mere, studieuse non seulement de toutes autres vertus, mais particulièrement des beaux secrets de la nature: la connoissance desquelz ne peut apprehender autre, que celuy qui est né à la speculation, & qui en son ame a grauez les mesmes effets des premieres vertus, avec lesquelles besoigne nature, & coë Regentes de nostre vie, tiennent le diademe de perfection, estreignant le commun lien de la perfection humaine. Elle donques, ayant fait amas de tant de nobles parties, peut estre accomparée à ces tant celebres Dames Grecques & Romaines, desquelles le nom vertueux est porté iusques à nous, par la trompe de la veritable renommee. Et certes, de deux si nobles & signalees plantes, ne pouuoit estre produit autre fruit que vous, mes Damoiselles, qui des vostre tendre ieunesse, suiuaus generousement le trac de voz remarquables parens, auez donné suffisant indice de voz bons & subtils esprits, qui sagement vous ont impatronisees en la possession des vertus paternelles & maternelles. Ie tien donques pour bien employé ce mien petit labeur, puis qu'il s'adrese à vous, de qui il est inuité, comme à son particulier obiect. Receuez le au moins, non comme chose correspondente à voz merites, mais comme gage du seruice que ie vous dois, & de la grande obligation que i'ay à vostre maison, au titre de laquelle ie vous le dedie, estimant en ce auoir beaucoup profité, que il aura esté adrese à Damoiselles qui le meritent, & qui prennent plaisir à telles choses, ayans mieux se paistre de semblables honestetez que perdre le temps à une infinité de vanitez & folies esquelles la pluspart des filles de nostre temps se plaict & delecte.

A ELLES MESMES.

I'appan deuotement, ô Nymphes honnorees,
Au triumpuant autel de voz rares vertus
Cest amas varié de feuilletz reuestus
Des habits & des ports de diuerses contrées.
Ceux qui boiuent l'humeur des ondes azurees
Du Gange, du Iordan, & des fleues tortus
Qui baignent le fonsien des miracles pointus,

Y ont soigneusement leurs faces retirees.
Vous y verrez encor le peuple contenu
Es bornes de l'Europe, & son manicien cognu
Vous sera de mon soing, le tesmoing immortel.
Le vocu vous, est petit. mais quoy? tousiours ne tombé
Au pere Iuppiter un superbe hecatombe
Ains abbreuee souuent l'agnelet son autel.

Jan de Gardesy Montalbanois a Jan
Jaques Boissard Bisontin.

Boissard je suis ravi quand la veue je fiche
Sur ce docte tableau qui fait voir a noz yeux
Le celeste pourtraict d'uyart ingenieux
Tresor de toncsprit planteureusement riche
La douce mouche à miel qui dans tes vers se niche
Doucelement mèrauit iusqu'au ciel radieux
Fadmire le grand tas de cesdons precieux
Dont je te voy comble' par une main non chiche
Que voy je de surcroÿ: c'est ce besson tableau
Auquel tuas voué cest ouurage tant beau,
Des graces & vertus que la trouppes ore Vienne
Les graces on verra qui sans graces seront,
Des vertus les vertus du tout effaceront,
Les vertueux sourgeons de la tige de Vienne.

De forma quondam natasque Jovisq. sororem
Dardanium fama est consuluisse Parin
Victricem Cyprin quid mirum est: illa dolose
Induerat vultus quippe Vienna tuos.

Qui prisas tecum formoso Heroidasore
Conferet & flaua Nympha lepore coma
Fortè extam multis tecum quæ certet habebit:
Sed quæ te superet non erit ingenio
